**NZCLIMATE TRUTH NO 191
2ND DECEMBER 2008**

NO WARMING SINCE 1995.

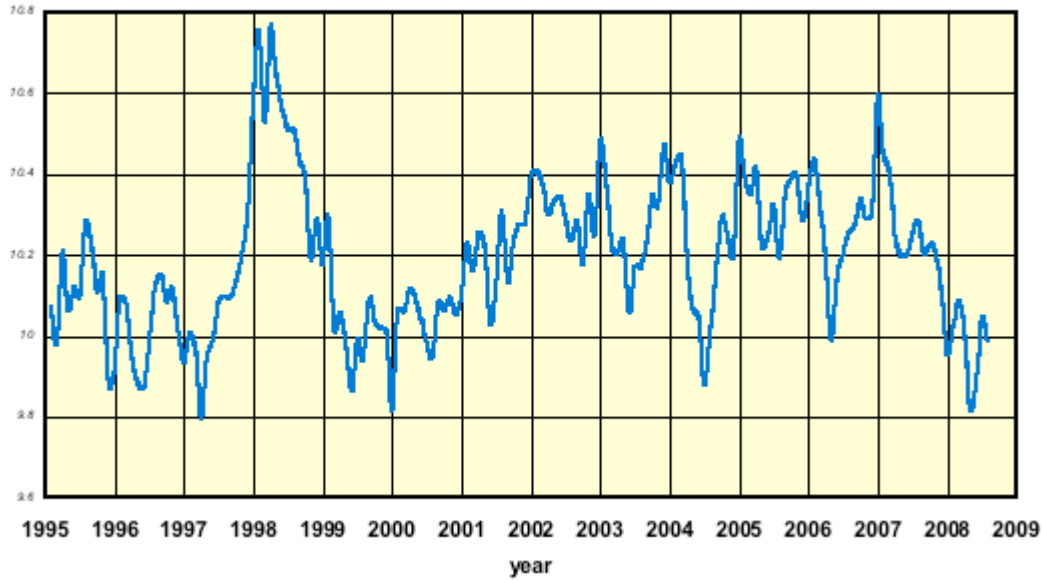

We have now reached the stage where global warming has now ceased for 13 years. Jarl Ahlbeck from Finland gives the evidence at

<http://tinyurl.com/6cauyq>

He gives two recent temperature records from 1995-2008. The first is from the Hadley Centre of the University of East Anglia, UK; the second from the NASA satellite readings from the University of Huntsville, Alabama. In both records the recorded global temperature today is almost the same as it was in 1995.

Temperature of lower troposphere, global, 1995-2008 (data from NASA)

Cheers
