

His Excellency Ban Ki-moon
Secretary-General, United Nations
United Nations Headquarters
760 United Nations Plaza
New York, NY 10017
United States of America

4 December 2012

Dear Secretary-General,

On November 29, 2012, Canada's National Post newspaper published "Desist from climate claims", an open letter to you from 125 individuals "qualified in climate-related matters." A scan of the hard copy of the article may be seen at: <http://tinyurl.com/c4yoo4o>. The Website version of the article along with the initial list of open letter endorsers, may be seen at: <http://tinyurl.com/bv8n2tl>. The number of expert signatories now stands at 133 as can be seen at: <http://tinyurl.com/bat5exo>.

We have also submitted two previous open letters to you signed by climate experts who do not agree with your assertions about climate change:

- December 2007: The Bali Conference open letter that may be viewed at: <http://tinyurl.com/7mqdnml>.
- December 2009: The Copenhagen Climate Challenge that may be seen at <http://www.copenhagenclimatechallenge.org/>. The Challenge was followed by a letter sent to your office by registered courier in February 19, 2010 as follows: <http://tinyurl.com/cp88bch>.

Neither you nor your representatives have responded to our letters, or even acknowledged their receipt.

We request that you now address the crucially important issues we raised in our open letters, please. It is clearly in the best interest of the peoples of the world that the considered opinion of leading climate experts, even those who do not agree with the assertions of the United Nations Secretary General, be properly handled. To date, you have not done so.

Sincerely,

A handwritten signature in black ink on a light-colored background. The signature is cursive and reads 'Tom Harris'.
